

COMPACT COIL

THE KING OF COILS WITH INTELLIGENT FLEXIBILITY

Tubing has outstanding abrasion resistance for durability and long-term performance

The highly flexible, smaller diameter coil greatly reduces sag, is highly tangle-resistant and offers a streamlined look against messy air and electrical lines

The **GP COMPACT COIL** is the KING OF COILS! *Intelligent flexibility* designed to flex, fold, bend & stretch, then return to it's original shape and still pass DOT & ADR performance specifications

Black coloured tubing increases UV resistance, extending coil life. No more faded teal and pink coils!

Non-corrosive cable guards offer outstanding tubing protection and are designed to survive extreme heat and cold conditions.

Extra long cable guards on the long tail coil offers better protection against road debris, harsh elements and severe failure

GP COMPACT COIL KINK RECOVERY

Recovery after 30 seconds of kinking and straightening

Part# **GP-9750** Long Tail Coil
Part# **GP-9000** Short Tail Coil

*GP Compact Coil comes standard with a limited 3 year warranty to the original purchaser that the products are free from defects in workmanship and /or materials only. Charges for additional incidental or consequential damage, including labor costs, cannot be accepted.
